## Redrawer needed for Sprite!

Yeah, this series is jinxed. The public raws are no good, then we begin purchasing our own raws; then the cleaner walks away, and so does the redrawer, and we have to recruit new ones; then the raw supplier retires, and we have to find a new one; then the redrawer retires and we're stuck again.

I won't mince my words: **Sprite**, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined, which is extremely hard and time-consuming. Essentially, if you can redraw **Sprite**, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfmsc6>

(You can post your application in our home page in the Join Us section - [deathtollscans.net](http://deathtollscans.net). You can also send it by PM to me there. Or you can send it to me by PM via Batoto, where my name is Kendama. Whatever. If you have the skills, we're willing to abide by your communication preferences.)

We can also make an exception and let you bypass the test if you are experienced and show us sample PSDs (retaining the unredrawn layers) of your past work. However, that will only cut it if those samples are nothing short of extraordinary. If our jaws don't drop, we'll ask you to take the test.

It took us months to recruit the previous redrawer, so don't expect new releases of this series for a while, unless we're very lucky.

CHAPTER 57: END

## ***New editor crisis at Death Toll!***

It's a minor crisis, but a crisis nonetheless. While our Head Redrawer, Mī, has taken up the task of redrawing *Telzokurei Monophobia* till the end, we still need a redrawer for *Sprite*, desperately so.

I won't mince my words: *Sprite*, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined and extremely hard and time-consuming. Essentially, if you can redraw *Sprite*, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfns66>

Other than that, we have lost an editor, that is, a person who can clean and typeset (and sometimes redraw, too). This one was in charge of *Suicide Island* (CL and RD), *Underdog* (only CL) and *Funcuon* (CL and TS).

*Suicide Island* is easy. Just pass our cleaning test (<https://goo.gl/K8bgON>) and the general folder of our easy redrawing test (<https://goo.gl/pv6ZKI>). You don't need to apply for both, we can have two people doing these projects.

*Underdog* is almost finished, only one chapter and an epilogue left, so we'll probably have them done as odd jobs by someone who passes our cleaning test.

*Funcuon* needs someone to pass the same test as *Sprite* above, plus our typesetting test (<https://goo.gl/wv7KcU>). Or you can take our editor test that combines both (<https://goo.gl/f6xova>). Of course, we can have two people do the tasks separately, so you can choose which one you want to apply for.

We have new translators, so we might be reviving stalled projects or starting new ones if we have more editors.

You can post your application(s) at our recruitment thread at Batoto, or PM me (Kendama at Batoto, Wraith at [deathtollscans.net](http://deathtollscans.net)), or post it in our home page in the Join Us section. Whatever. If you have the skills, we're willing to abide by your conditions.

MURDERS

IF THAT  
COMES TO  
PASS,

POLITICS,  
THE ECONOMY,

MAIN POSITIONS IN  
SOCIETY WILL BE  
MONOPOLIZED BY  
CHEATERS AND  
NORMAL PEOPLE  
WILL BECOME THE  
DOMINATED.

YES.

WILL PROCLAIM  
THE EXISTENCE OF  
CHEATERS TO THE  
WORLD, WHO WILL  
RULE OVER LESSER  
HUMANS AS THEIR  
SUPERIORS...

YOU'VE  
GOT TO BE

THEN,  
WHAT I

YES...

THAT WAS  
ONE OF OUR  
STRATEGY  
MEETINGS.

WE HAD  
OBTAINED  
"MASTER'S"  
PLANS IN AN  
ATTEMPT TO  
STOP HIM.

BEFORE  
TOKYO  
PLUNGED

THAT'S THE  
TIME WHEN I  
GOT INVOLVED  
IN THAT HIT  
AND RUN  
ACCIDENT...

WE ONLY GOT A  
HOLD OF "MASTER'S"  
PLANS ABOUT TWO  
MONTHS AGO.

HOWEVER...  
IN THE END IT  
WAS ALL FOR  
NOTHING.

BECAUSE YOUR  
SO-CALLED  
"POWER TO MUL-  
TIPLY CHEATERS'  
ABILITIES" WAS  
THE CORNER-  
STONE OF OUR  
STRATEGY.

... BECAUSE  
WE DIDN'T

THINGS A LITTLE  
ROUGHLY...

## LD'S GOAL...

YOU SAID  
IT WAS ONLY

CASE, WHAT  
IS IT THAT  
WE WANTED?

NOTE: Although most the characters of the comic are biologically it's not really what happens. In most situations, even those that involve things change into something through without going through some kind of stage. After is required to be in a state of a state of a state.

THAT'S A WELL-DOCUMENTED PHENOMENON IN THE IMMORTAL JELLYFISH, BUT NOW CAN THIS ABILITY EXIST IN A HIGHER ORGANISM!

AS EXPECTED, IT'S TRANSDIFFERENTIATION.

RIGHT BEFORE THEY SHOULD DIE, THE CELLS RETURN TO AN IMMATURE STATE...

IN OTHER WORDS, THEY REGENERATE.

IT'S AS WE THOUGHT...

FOR THE, I get what the author's message was. Transposon defines the immortal jellyfish, but of an organism would have been to react from biology to a stage and then again immortal, but this is not the young he described in the group just.

ISN'T THIS IMMORTALITY!?

It's like "life does this transition for dramatic effect in English, but a more accurate rendition of Transposon would be "agelessness"

"MASTER'S" ABILITY IS "IMMORTALITY"!!

## ***Redrawer still needed for Sprite!***

I won't mince my words: **Sprite**, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined and extremely hard and time-consuming. Essentially, if you can redraw **Sprite**, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfns6>

Incidentally, the whole of the next volume is translated and being proofed now. The next chapter is being typeset. So you can wait until you croak for new releases, unless someone applies.

We're on a transition phase, so we might have other editor positions open in the near future. If you'd like to clean or redraw with us, keep track of our recruitment ads because I'll soon have a position on that.

You can post your application(s) at our recruitment thread at Batoto, or PM me (Kendama at Batoto, Wraith at [deathtollscans.net](http://deathtollscans.net)), or post it in our home page in the Join Us section. Whatever. If you have the skills, we're willing to abide by your conditions.

## **Cleaner needed for God, you bastard, I wanna kill you!!**

Mii has told me his free time will become limited in the near future, and as such he would like to concentrate on redrawing.

This series is released at a slow pace, and we have high-quality raws, so the workload isn't very high. You will also receive a Photoshop action to automate part of the cleaning.

However, we'll still need you to be able to clean manga properly, so applicants are expected to take our test: <https://goo.gl/CT2zt>

So, please apply!

TLN: It's hard to translate lyrics, and this one has an additional problem namely that it's a business version of the Italian or Catholic hymn "What should we have in love" written by Joseph Scriven and set to music by Charles Contratto. The Japanese lyrics are not a direct translation of the original hymn, but an adaptation that reads at the most popular wedding song in the country. I had to either choose random lines of the original hymn, or translate the Japanese lyrics without regard for the original I opted for the latter.

## ***Redrawer needed for Deathtopia!***

This is the last chapter Mii is able to do in our normal biweekly schedule. If no one shows up to replace him, this series will begin to suffer delays and stalling completely is not impossible.

So I am counting on there being, amid the readership, a skilled Photoshop user to take it up as soon as possible.

The good news is that right now there's no backlog for this series, so successful applicants won't have a high workload. On the contrary, this series is quite easy by Death Toll standards. Sometimes there are even chapters without redraws, or in which the only one is the title. And you have almost two weeks to do a chapter.

Therefore, you only need to take our easiest test: <https://goo.gl/KluWmE>

Do it to the best of your abilities and send it to me (Wraith in our site at [deathtollscans.net](http://deathtollscans.net), Kendama at Batoto) in PSD format, preserving the raw layers, as a download link. Or post the link in the Join Us section in our site. That if you are inexperienced. Experienced users can send me samples of their past work or contact me so we can think of ways of bypassing the test.

## ***Redrawer needed for Sprite, too!***

I want to draw attention to **Deathtopia** because it's easier to find applicants in releases of the same series for which we are recruiting, so I'll be brief on this one not to distract you.

**Sprite** is much harder, and we need applicants to pass our full test: <https://goo.gl/qfns6>

Experienced redrawers must try their best to impress us with samples if they hope to bypass it. Inexperienced redrawers are strongly advised to do the test. If no one applies, we might either put the series in the back burner, or send quality to the dogs and release chapters unredrawn.

It took us months to recruit the previous redrawer, so don't expect new releases of this series for a while, unless we're very lucky.

## Redrawer needed for Deathtopia!

*(one for Sprite is needed as well)*

This chapter is out because of sheer grace. To be specific, Yothen's grace. Can you believe this? That I managed to convince our Head Typesetter to redraw a chapter? Well, he did redraw it, in addition to a couple of Mil's redraws. Be grateful, because I am.

Yeah, the redrawer we had found for it, though competent, didn't fit well in the scanlation pipeline, so I am recruiting again. It's a good deal for the applicant, too, because it would seem there are only two chapters left. It's impossible to tell if it was axed, because this author is known to let his series implode, and it was popular in its magazine at least until last time I checked, but be that as it may, it has been announced *Deathtopia* will end on November 22. (I didn't read the announcement myself, but have no reason to doubt its veracity.)

However, we still need you to prove your skill. Our general test, which should be enough for this series is here: <https://goo.gl/KIuWmE>

If you are experienced, I'm sorry, but I'm dumping the policy of letting applicants bypass the test just by submitting past samples. I've grown to believe, based in recent experiences, that being willing to do some kind of test proves a desirable mindset. But we can compromise by letting experienced applicants, instead of a standard test, redraw a chapter on probation. However, if you do choose this route, know that your redraws will not be automatically used unless they are found to be good. We will discard your work if we consider it lacking. It's high risk - having a full chapter discarded - high gain - being allowed to work on something that may actually be used. Your choice. Ah, the chapter will be un-typeset.

If you pass, you'll be required to redraw a chapter in at most ten days, followed by a break of a little less than a week while we translate, proof, clean and typeset the next chapter.

Applications may be posted in the Join Us > Editing section in our website ([deathtollscans.net](http://deathtollscans.net)), or sent to me as a PM there or at Batoto (where I go by Kendama).

A redrawer is also needed for *Sprite*. This series is much more difficult and, while the above conditions do apply, the test you must do is this one: <https://goo.gl/qfmsc6> (Do all pages of it.)

## Redrawer needed for Sprite!

I won't mince my words: **Sprite**, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined and extremely hard and time-consuming. Essentially, if you can redraw **Sprite**, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfns06>

(You can post your application in our home page in the Join Us section - [deathtoilscans.net](http://deathtoilscans.net) - or PM me there or in Batoto (where my name is Kendama). Whatever. If you have the skills, we're willing to abide by your conditions.)

We can also make an exception and let you bypass the test if you are experienced and show us sample PSDs (retaining the unredrawn layers) of your past work. However, that will only cut it if those samples are nothing short of extraordinary. If our jaws don't drop, we'll ask you to take the test.

It took us months to recruit the previous redrawer, so don't expect new releases of this series for a while, unless we're very lucky.

## ***Redrawer needed for The moon is beautiful tonight, but first, die!***

This series doesn't normally appear in our release in the site because it wasn't a joint until recently. I had agreed to translate it for our good friends in Silent Sky, and the Death Toll name would be merely pegged to mine in the credits. If we don't find a redrawer for it and they do, that's how things are going to be.

Because right now, a redrawer or more are badly needed. The moon is beautiful... is among the harder series, and we're doing SFX for this one (though not all of them, of course). The workload is high, too, there are many redraws per chapter, some of which are very complex. And there's a backlog of five chapters, soon to be six. All are translated and proofed.

Silent Sky's Everath tells me they might have found someone who can do the easier redraws, which leaves us the harder ones. This means you will have to take our full test: <https://goo.gl/qfmsc6> .

If you are experienced, I'm sorry, but I'm dumping the policy of letting applicants bypass the test just by submitting past samples. I've grown to believe, based in recent experiences, that being willing to do some kind of test proves a desirable mindset. But we can compromise by letting experienced applicants, instead of a standard test, redraw a chapter on probation. However, if you do choose this route, know that your redraws will not be automatically used unless they are found to be good. We will discard your work if we consider it lacking. It's high risk - having a full chapter discarded - high gain - being allowed to work on something that may actually be used. Your choice. Ah, the chapter may be un-typeset.

## ***Redrawer still needed for Sprite!***

I won't mince my words: *Sprite*, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined and extremely hard and time-consuming. Essentially, if you can redraw *Sprite*, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfmsc6> .

Incidentally, the whole of the next volume is translated and being proofed now. The next chapter is being typeset. So you can wait until you croak for new releases, unless someone applies.

You can post your application(s) at our recruitment thread at Batoto, or PM me (Kendama at Batoto, Wraith at deathtollscans.net), or post it in our home page in the Join Us section. Whatever. If you have the skills, we're willing to abide by your conditions.
